SUMMARY

Recent B.E. (CSE) graduate with hands-on experience in Fronted Development. Skilled in building responsive, user-friendly web applications using modern frameworks and agile methodologies. Familiar with CI/CD pipelines and collaborative team development.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, HTML, CSS, Python (Basic)
- **Frameworks & APIs:** React.js, Spring Boot
- **Cloud Computing:** AWS (EC2, IAM, S3)
- **AI & Emerging Technologies:** Prompt Engineering, RAG (Retrieval-Augmented Generation), Generative AI
- **Databases:** MySQL
- **Core CS:** OOP, DBMS(Basic)
- **Tools:** Git, GitHub, VS Code
- **Workflow:** Agile Methodologies, Team Collaboration, Code Reviews

EXPERIENCE

IT Intern, Ajwa Kaif Pvt Ltd (Offline Mode)

3 Month Internship

- Actively contributed to IT department projects and technical tasks.
- Developed frontend modules using HTML, CSS, and JavaScript.
- Assisted in designing responsive UI components for web applications.
- Received positive feedback for punctuality, adaptability, and quick learning.
- Improved interpersonal and communication skills through team collaboration.

EDUCATION

- **Bachelor of Engineering (BE)**, Anna University — Nov2023-May2026
  Computer Science Engineering, CGPA:8.0/10(No Backlogs)
- **Senior Secondary (12th)**, BSEB (67%) — May2021- June 2023
- **Matriculation (10th)**, BSEB (65%) — March 2020

PROJECTS

Hospital Management System
– Developed a full-stack application to manage patients, appointments, and billing.
– Built REST APIs using Spring Boot and integrated MySQL database.

- **Spam Detection System**
– Built an NLP-based ML model to classify spam and non-spam messages.
– Applied TF-IDF and trained models using Scikit-learn.

- **Smart Voice Calculator**
– Developed a voice-enabled calculator using JavaScript Speech Recognition API.
– Designed responsive UI with real-time expression evaluation.

- **Bank Management System**
– Built a Java-based banking system with account and transaction modules.
– Implemented JDBC for MySQL database connectivity.

- **Movie Recommendation System**
– Developed a content-based recommendation engine using Python.
– Performed data preprocessing with Pandas and implemented ML models using

Scikit-learn.

CERTIFICATIONS

Certified in **Government-Certified Naan Mudhalvan Program**, **Cisco CCNA: Introduction to Networks**, **Cisco: Introduction to Cybersecurity**, **Web Development Certification**, and **DCA Certification**.

ACHIEVEMENTS

- Achieved **95% accuracy** in Spam Detection project using NLP & Scikit-learn.
- Improved model performance with **88% accuracy** in Movie Recommendation System.
- Achieved **92% functional test coverage** in Hospital Management System.
